A life-changing experience!

Initially I felt very anxious about what it would be like as well as meeting people I didn't know. But it was an absolute eye opener for me, because it was the coming together of hearts and minds, like-minded people discussing their business challenges and objectives. It wasn't all work though – we did have lots of fun and made friends for life. I took part in cookery courses, visited a Souk, Hammam, we had great food, great entertainment. The 1:1s you get with Dawn are invaluable, the hot seats where a group can challenge you on some of your ideas and plans. I have got a community of friends I can work with and call on. I'd highly recommend it, I have never done something like this in the past, never invested in myself or invested in my career – I have never thought of it previously, however, I can't recommend it highly enough and I would strongly recommend you get a place on the next one as it is well worth it! My mind is absolutely blown

The last two years have been especially hard for me mentally and this retreat came along at exactly at the right time, just as the fog was beginning to lift. The retreat was extremely well organised and I had a great deal of fun, with a wonderful group of entrepreneurs. Fun for me is a key to being in business and this retreat augmented that, while creating a whole new support network and lifelong friendships. All that without even mentioning the high quality of the "work related" activities. I have come away refreshed, energised and excited, more importantly my business is filled with renewed vigour, ideas and fun. Highly recommended. [Read Less](#)

Mixture of Fun and Business

Spending time with Dawn is always fun but coming on the retreats is another level. No matter what your experience in business is there is always a new insight other people bring to the table. The power of the collective including Dawn's wealth of knowledge and experience. I liked the format of the retreat as there was a big chunk of time for relaxing or catching up on work and there were activities you could partake in. And the people you meet are amazing. You arrive as strangers and come away with lifelong friendships. Would wholeheartedly recommend. [Read Less](#)
